

Go-To-Market Channels & Customer Acquisition

A Multi-Pronged Strategy for Rapid B2B and Mid-Market Market Penetration

Omnichannel B2B Customer Acquisition Framework

Beyond autonomous outbound sales, Fathom deploys a multi-channel go-to-market strategy targeting high-intent decision-makers across four key acquisition pillars, minimizing dependence on any single channel.

1. HIGH-ROI OUTBOUND (FATHOM FLEET)

Autonomous SDRs target agency owners, SaaS founders, and sales leaders with free custom lead samples (25k+ monthly touches, 4.5%–7.2% response rate).

2. AGENCY PARTNERSHIP PROGRAM

Recruiting, marketing, and SEO agencies deploy Fathom as their secret fulfillment back-office, driving negative net churn.

3. OPEN-CORE DEVELOPER FUNNEL

Engineers and technical founders adopt the open-source Rust CLI on GitHub, upgrading to managed hosting and unlimited Chinese compute.

4. B2B COMMUNITY & SKILL MARKETPLACE

Pre-built coworker SOP templates (e.g. *"Fintech SDR"*, *"YC Founder Scout"*) shared across communities generate viral organic word-of-mouth.
