

Agency & B2B Partner Ecosystem

Empowering Agencies to Become High-Margin Autonomous Workforce Providers

The Agency Force Multiplier: White-Label Distribution

Marketing agencies, outbound lead-gen firms, and recruitment consultancies transform from labor-heavy service providers into scalable, high-margin software-enabled operators by deploying fleets of Fathom coworkers.

AGENCY TRANSFORMATION MODEL

- **Eliminate Freelancer Costs:** Replace variable Upwork scrapers with dedicated Fathom worker fleets.
- **10x Client Capacity:** A single account manager oversees 20+ client campaigns powered by coworkers.
- **White-Label Portals:** Clients see real-time lead counts and search logs under the agency's domain.

AGENCY PARTNER BENEFITS

- **Volume Seat Discounts:** Mark up services by 300% to 500% while paying wholesale seat costs.
- **Custom Skill Templates:** Proprietary coworker SOPs tailored to specialized niches (MedTech, Legal).
- **Dedicated SLAs:** Priority worker container routing and direct engineering access.
