

Agency & B2B Partner Ecosystem

Empowering Agencies to Become High-Margin Autonomous Workforce Providers

The Agency Force Multiplier: White-Label Distribution

Marketing agencies, outbound lead-gen firms, and boutique recruitment consultancies face severe labor constraints. By partnering with Fathom, agencies transform from labor-heavy service providers into scalable, high-margin software-enabled operators.

AGENCY TRANSFORMATION MODEL

- **Eliminate Freelancer Costs:** Replace variable Upwork scrapers and virtual assistants with dedicated Fathom worker fleets.
- **10x Client Capacity:** A single human account manager can oversee 20+ client campaigns powered by autonomous coworkers.
- **Client Self-Service Portals:** White-label the web dashboard so clients see real-time lead counts and search logs under the agency's domain.

AGENCY PARTNER BENEFITS

- **Volume Seat Discounts:** Tiered partner pricing allowing agencies to mark up services by 300% to 500%.
- **Custom Skill Templates:** Agencies build proprietary coworker SOPs tailored to specialized niches (e.g. MedTech, Legal, Real Estate).
- **Dedicated Support & SLAs:** Priority worker container routing and direct access to core engineering.

Typical Agency Partner Economics (10 Client Accounts)

FINANCIAL METRIC	LEGACY AGENCY DELIVERY	FATHOM-POWERED AGENCY
Monthly Labor / Tool Cost	\$12,000 / mo (3 Human VAs + SaaS)	Low Flat Seat Subscription
Client Retainer Revenue	\$25,000 / mo (\$2,500/client)	\$25,000 / mo (\$2,500/client)
Gross Profit Margin	52% (\$13,000 / mo)	84%+ (\$21,000+ / mo)
Fulfillment Turnaround	5 – 7 Business Days	Instant & Continuous (24/7)

MULTI-TENANT CONTAINER SUPERVISION

Agency administrators manage hundreds of client worker nodes through a single unified pane of glass. Each client's data, CRM keys, and search history remain strictly isolated in dedicated Docker sandboxes and separate SQLite databases.

Agency Stickiness: Once an agency embeds Fathom into its core client fulfillment pipeline, retention exceeds 95% annually.
