The Value-First Offer: 'We Found 50 Verified Leads for You for Free'

Traditional B2B SaaS asks prospects to sit through boring 45-minute slide demos. **Fathom delivers tangible economic value upfront:** our autonomous system finds, verifies, and packages 50 high-quality leads for the prospect's exact target market—completely free, before asking for a single dollar.

Figure 15.1: Free Value Audit Deliverable – 50 pre-verified decision-makers with zero bounce rate and CRM sync ready

1. Instant Frictionless Input

Prospect submits simple criteria via Telegram bot or web form: *"Fintech companies in London with >20 employees"*.

2. Autonomous Execution (< 2m)

Fathom spawns a 4-agent swarm that queries registries, extracts executive contacts, and runs real-time SMTP 250 OK handshakes.

3. Instant Excel & CRM Export

Prospect receives a formatted Excel file (.xlsx) with 50 deliverable leads and a 1-click button to push into amoCRM.

Irresistible Conversion Logic: *"If Fathom's autonomous worker delivered 50 verified leads in 2 minutes for free, imagine what a dedicated digital employee will do for your business every single day."*
